FULL-STACK DEVELOPER

EXPERIENCE

GITGUARDIAN | FULL-STACK INTERN DEVELOPER
November 2018 – July 2019 | Paris, France

GitGuardian is a solution that scans GitHub activity in real-time for API secret tokens, database credentials, certificates and alerts the developer within a minute. GitGuardian is trusted by more than 150,000 developers. During my internship, i was involved in the website redesign and creating demo platforms for B2B operations.

- Developed applications using **React** with **Django** and **PostgreSQL**
- Use of **Docker** and **Gitlab-CI** as tools for continuous integration and delivery
- Worked using **Agile** methodology

EDUCATION

ÉCOLE 42 | COMPUTER SCIENCE
2019

BACCALAURÉAT SCIENTIFIQUE | HIGH SCHOOL SCIENTIFIC GRADUATION
2016 | Lycée Saint Joseph Le Havre

With honors ("Assez Bien") and European English distinction

AWARDS

CAMBRIDGE ENGLISH ADVANCED (CAE) | C1 ENGLISH CERTIFICATION
2016 | Cambridge College

NAVYA X 42 - TEAM EXEDRA - FIRST PLACE | CODING CONTEST
Mondial Paris Motor Show 2018 | CES 2019

The french autonomous car brand made a contest with 42, the goal was to improve the user experience aboard the car. We envisioned a pop-up meeting room, then we engineered a platform to book and manage meetings with React Native and Express. We presented our solution at the CES 2019.
